

## CAADC Partnering with Solarize Delco to Provide Grants to Qualified Homeowners

Community Action Agency of Delaware County, Inc. (CAADC) has partnered with Solarize Delco for a new Solar Savings Grant Program to make the savings of rooftop solar power installations available to low-income homeowners. Solarize Delco's volunteers will provide homeowners with no pressure information and help them decide if solar is right for them. CAADC will provide eligibility screening for the Grant Program as it does for its current free Home Weatherization Program. Homeowners can contact Solarize Delco ([www.solarizedelco.org](http://www.solarizedelco.org)) or CAADC ([www.caadc.org](http://www.caadc.org)) to find out if they can participate in Delaware County's transition to clean energy and lower their energy bills.

## Solarize Delco (continued from Page 1)

The **Solar Savings Grant Program** demonstrates that residents from every neighborhood in Delaware County can participate in the transition to clean energy. Participants can power their home with sunshine, nature's clean renewable energy, while also saving significant money on their family's electric bills. It is critical that we support solar adoption in low-income communities and communities of color so that our most vulnerable residents can benefit from the savings, jobs, and resilience that result from installing solar on local rooftops.

Those who can pay or borrow the project cost already know that home Solar power provides excellent financial payback. Solarize Delco provides a simpler approach that improves the financial returns and removes the worry of contracting for this home improvement for everyone, but income limited homeowners who may have poor credit scores may access these savings. Solarize Delco is making this option more affordable, both to scale up this important climate action solution and to ensure that the transition to clean energy is equitable and inclusive.

Solarize Delco is an all-volunteer non-profit 501(c)(3) corporation helping neighbors learn if solar is right for them. All Delaware County homeowners, businesses and non-profits can receive our help. Since the program launched in 2019, over 200 homeowners have learned about solar through the program, over 40 homes and houses of worship have gone solar, and over 280 kW of power generating capacity has been installed.

Get more information on how to go solar the easy way, view educational videos or sign up for a consultation with your solarized neighbors at <https://solarizedelco.org/>, email Solarize Delco at [SolarizeDelco@gmail.com](mailto:SolarizeDelco@gmail.com) or contact CAADC about grant eligibility at (610) 521-8770.

# Free Tax Assistance Provided Countywide to Low-Income Families

CAADC has now provided free tax assistance to low-income households over 11,000 times during that span. CAADC was once again fortunate to be able to partner with the Internal Revenue Service for our VITA sites.
